The Wisdom Catalyst: Unleashing Ancient Insights for Corporate Growth

Thousands of years of ancient wisdom are held by Elders in cultural and spiritual communities around the world. This knowledge is often dismissed as primitive. The reality is this simple, yet powerful wisdom was meant to live and evolve into modern lessons. In *Wisdom Catalyst*, Eboni shares timeless principles from Afro-Brazilian, Indian, and Choctaw communities and their relevance for elevating business, leadership, and organizational culture. In *The Wisdom Catalyst*, Eboni shares stories of her Elders and the wisdom they requested she carry into boardrooms and corporate offices. This is an inspirational journey that offers foundational principles for leading, managing teams, and working consciously to change the world.

This program is ideal for leaders and organizations who want to:

- Embrace conscious business principles
- Complement leadership skills training with practical perspective and methods
- Understand the relationship between transformation and success

Accolades

Eboni, Thank you so much for speaking today! I am so happy you said "Yes" to BWN
-R. Trouter

Absolutely Amazing! You gave me a lot to think about.
-L. Thomas

"Eboni inspired the room! She made us think about how we lead and communicate with others. She has a unique way of thinking about leadership. I'm grateful for the experience."
-J. Kreutz

I am happy to be connected with such an amazing speaker. You actually were able to quiet the room - everyone was listening to your words about connection!
-L. Britt

Something pretty amazing happened after you left. I was talking with another attendee and because of you, I really became aware of listening, and looking into her eyes. She looked into mine too and we shared a powerful connection. I'm not sure we would have done that today without your speech."
-B. Moyer

Our Approach

We deep dive into the purpose of the organization, teams, and leaders, to *shift* how purpose is embodied

We evaluate and strengthen gaps between people and their *relationship* to the transformation, processes, and other people

We connect the dots to *empower* the team to align their transformation launch and execution to the big picture

We *reframe* power to ensure harmony, respect, and success across the organization

We use personal development as a *mirror* for implementing corporate transformation initiatives

We incorporate methods and philosophy from indigenous cultures in *innovative* ways for the corporate community
